

# EASY CRAFT PROJECTS FOR KIDS

## HAUNTED FLOWERS

### What you need:

Fake flowers from dollar shop, eyeballs from dollar shop, textas, glue gun

Glue the eyeball into the centre of the flower, and make them extra spooky with textas.

Put them in an old vase or glass and decorate your Halloween table!

## HALLOWEEN SCENES

### What you need:

Black and coloured paper, scissors, pencils, textas

These are super easy! Just find a picture you like, draw it onto large sheets of black paper and then cut them out. They look amazing and are a great way to spook up a plain wall.
